

March 20, 2020

To All of our Kanebridge Customers:

We are: Determined. Committed. Prepared.

Just like you and your families, we are listening to government officials and health experts regarding best practices to follow to minimize the spread of the COVID-19 virus. Like you, we want to act in the best interests of our country and be of service to those businesses and organizations that are faithfully working to meet the vital needs of our fellow man. And we want to do so safely!

Our customers are confirming what we hear on the news. There is a sudden surge of activity in businesses that serve the health care, food processing, pharmaceutical, paper goods, trucking and chemical manufacturing industries. The demand for military-grade hardware has increased. *The fasteners you supply to them are vitally important, and we remain open to get them to you.*

Kanebridge is ready for moments like this.

Our Customer Service, Purchasing, Accounting and IT Departments have had “work from home” practices in place for over ten years! These systems continue to function, enabling our people to serve you while working from home. Our exceptional warehouse staffs are following safe social-distancing practices and keeping our workplaces clean. Each of our warehouses have portable toilets immediately outside our doors that are sanitized daily, for the convenience of any drivers that need them.

Our fill-rates remain high. We are maintaining our same-day shipping schedules. We are receiving new supplies and processing them. **Our regular carriers have confirmed they will be shipping your orders!**

We are here for you and those industries that rely on us all, now more than ever.

Sincerely,  
The Kanebridge Corporation
